PERSONAL PROJECTS

Portfolio (06/2024 - 07/2024)

- A responsive, modern portfolio website showcasing my web development projects and skills. Built with HTML, CSS, and JavaScript, it features a clean design, smooth animations, and easy navigation. Highlights include an interactive project gallery, a skills section, and a contact form.

Product Category Manager (PCM) (03/2024 - 04/2024)

- ProdCat Manager is a Java-based application designed for efficient product and category management. Utilizing SQLite for the database backend, ProdCat Manager ensures robust and reliable data storage and retrieval. The user interface is built with Java Swing, providing a responsive and user-friendly experience. an ideal solution for small to medium-sized businesses.

Movies website (10/2023 - 12/2023)

- Film Hub is a website for film enthusiasts, built with React, PHP, HTML, CSS, and Node.js. It features a dynamic and responsive interface for discovering, tracking, and reviewing movies. Users can explore a comprehensive film database, personalize their watch lists, and engage with a community of movie lovers. Film Hub ensures efficient data handling and a seamless user experience.
